With over 100 contributing buildings dating from the 1830s to the 1940s, the Jefferson City Capitol Avenue Historic District (CAHD) is an integral part of not only the community, but our state's history.

Historic City of Jefferson has made several advancements over the past 18 months to remove some of these historic properties from blight status. We are also hard-at-work rebuilding the district after the May tornado ravaged many of these properties.

Your donation will help in the following ways:
- $100 and less will go towards exterior paint;
- $250 and $500 will help with debris clean-up during the construction process;
- $750 will pay for a structural assessment of the building's viability;
- $2,000 and $5,000 donations will be used to fund facade improvement grants.

Historic City of Jefferson appreciates your contribution to ensure the Capitol Avenue Historic District is saved for future generations to enjoy!
